### **DETAILED ACTION**

Receipt is acknowledged of the amendment filed 10/21/2005.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 3, 18, 19-21, 23, 24, 33-45 have been considered but are moot in view of the new ground(s) of rejection.

The following rejection is made with the understanding that applicant has claimed foreign priority. It is noted however, that no statement has been made as to whether a copy of this document has been filed with the US or PCT offices. Submission of the priority document would overcome this rejection since the priority document predates the parent filing of the reference.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 3, 18, 20, 24, 33-45 are rejected under 35 U.S.C. 102(a) as being anticipated by Novartis (EP 01100764.8).

Novartis discloses a composition of dexpanthenol lens care cleansing and disinfecting (see lens care product containing dexpanthenol). The concentration of

dexpanthenol is 0.2 to 10 percent by weight. Other excipients and antimicrobials are listed in addition to dexpanthenol (see page 1, last paragraph. While the reference does not disclose impregnating the lens, the disclosure of "lens care" makes such impregnation inherent. The product of Novartis is a solution (see page 4, last line). The disclosure is for use with all kinds of contact lenses. Viscosity modifying agents such as Polyvinyl alcohol hydroxypropylmethyl cellulose are found in the solution at page 2, last paragraph. Buffers such a boric acids, borates are listed at page 3, 6<sup>th</sup> paragraph. PHMB is disclosed for use in the solution at of the examples. The instant claims are anticipated by Novartis.

Claims 21 and 23 are objected to as dependent upon a rejected base claim.
